

Appendix C Anaerobic Digestion Plant

In addition to the Proposal Form, please complete this Appendix if coverage is requested for an Anaerobic Digestion facility.

Please provide the address of the location including a brief summary of the plant and process equipment.

Date of first operation:

Power generation: MW pa

Feedstock treatment capacity: tpa

Does the facility operate under an environmental permit or exemption?

Please provide details about the feedstock source, type and annual throughput (tpa).

Please provide details of typical feedstock volumes stored (m3) at the property at any one time, storage arrangements and any associated prior treatment for the feedstock.

Please outline minimum retention time for digester (days) and use of resulting gas.

Are there any storage tanks on the property(s)? No Yes If Yes, please complete Appendix A.

Please outline responsibilities for the operation and maintenance of the installation.

Please describe the output volumes (m3/tpa) for liquid and solid digestate including disposal route(s).

Liquid Digestate:	<input type="text"/>	m3/tpa	<input type="text"/>
Solid Digestate:	<input type="text"/>	m3/tpa	<input type="text"/>

Is the digestate produced conform to PAS110? No Yes
