

AIG Cyber Risk Consulting Services

Despite a company's best efforts to protect itself from a cyber attack through its own IT department, it may not be enough in today's rapidly changing cyber environment. AIG Cyber insureds are armed with a wide range of preventative tools, including up to £10,000 value in complimentary* services, adding valuable layers to a company's line of defense.

Complimentary Tools and Services*

Complimentary tools and services are included with each CyberEdge policy for eligible clients* to provide knowledge, training, security, and consultative solutions.

Employee Cybersecurity eLearning and Phishing Simulation

– Available in 11 languages

Timely and measurable managed employee training and compliance service, tailored to employee roles to reinforce clients' security policies.

Blacklist IP Blocking and Domain Protection

– Reduces the attack surface up to 90% ahead of the firewall

Enables organizations to control their exposure to criminal activity by leveraging vast threat intelligence repositories, precision geo-blocking, and black-list automation to reduce risk.

Infrastructure Vulnerability Scan

– Identification of high risk infrastructure vulnerabilities

Clients can select up to 250 of their IP addresses to have experts examine to identify critical vulnerabilities that are open to potential exploits by cyber criminals, with a follow up scan 90 days later to verify your efforts at remediation.

AIG Cyber Services Orientation

– One-on-one session with AIG Cyber Risk Consulting

One hour with an AIG Cyber Risk Consultant to address questions clients may have about their risk posture and recommendations in their cyber maturity reports and to introduce them to AIG's services and key vendor services that can help improve their cyber risk.

* Clients purchasing CyberEdge and spending more than £5,000 in premium qualify for these complimentary services

Cybersecurity Information Portal

- Online access to cybersecurity information
- 24/7 access to current cybersecurity information.

Endpoint Detection and Response

- Accelerated threat detection and incident response
- Insureds can implement an advanced threat detection capability across their environment, coupled with an incident response retainer, for on-demand access to aid in protecting and responding to cyber events.

Security Ratings

- Network security scoring
- Using an easy A-F grading system, clients are scored from an “outside-looking-in” perspective of their overall cybersecurity in ten key risk categories .

Insurance Portfolio Diagnostic

- Cyber as a peril analysis against insurance portfolio
- Experts review the client’s entire property and casualty portfolio to determine how it is anticipated to respond to the spectrum of cyber predicated financial and tangible losses.

Fee-based Services

CyberEdge Clients can also improve their level of protection and preparation by taking advantage of additional services at preferred rates from AIG’s cyber risk consultants and our expert partners.

Preferred Vendor Partner Services

BitSight Security Ratings, powered by BitSight Technologies, lets clients measure and monitor their own network and those of their third party vendors.

Dark Net Intelligence, powered by BlueVoyant, helps clients stay apprised of what the latest chatter is inside the dark net.

Office of the CISO, powered by Optiv, provides on-demand access to virtual, interim, and staffed CISO expertise as well as critical security advisory services.

Quantification Workshop and Insurance Portfolio Stress Test, powered by Axio, helps clients understand their cyber exposure in financial terms and subsequently, how a variety of representative cyber loss scenarios might be treated by the client’s entire insurance portfolio.
