

CyberEdge® Risk Consulting Services

End-to-End Cyber Risk Management Solutions

Despite a company's best efforts to protect itself from a cyber attack through its own IT department, it may not be enough in today's rapidly changing cyber environment. CyberEdge clients are armed with a wide range of preventative tools, adding valuable layers to a company's line of defense.

Complimentary tools and services are included with each CyberEdge policy* to provide knowledge, training, security, and consultative solutions. Clients can also improve their level of protection and preparation by taking advantage of additional services at preferred rates from AIG's cyber risk consultants and our expert partners.

Complimentary Tools and Services

Employee Cybersecurity eLearning – Available in 11 languages

Meaningful, sustainable, and measurable cyber risk reduction eLearning to reference and reinforce clients' security policies based on employees' individual roles.

Blacklist IP Blocking and Domain Protection – Reduces the attack surface up to 90% ahead of the firewall

Enables organisations to control their exposure to criminal activity by leveraging vast threat intelligence repositories, precision geo-blocking, and black-list automation to reduce risk.

Infrastructure Vulnerability Scan – Identification of high risk infrastructure vulnerabilities

Clients can select parts of their internet-facing infrastructure to have experts examine and identify vulnerabilities that are open to potential exploits by cyber criminals.

Insurance Portfolio Diagnostic – Cyber as a peril analysis against insurance portfolio

Experts review the client's entire property and casualty portfolio to determine how it is anticipated to respond to the spectrum of cyber predicated financial and tangible losses.

Cybersecurity Information Portal – Online access to cybersecurity information

24/7/365 access to current cybersecurity information.

Additional Benefits, Tools, and Services

In addition to the above complimentary services, all CyberEdge clients have access to the following services at a preferred rate, some of which are available for a free demo. These services have been specifically selected based on our nearly 20 years of experience and how well they can help strengthen the cybersecurity maturity of an organisation.

AIG Risk Consulting Services

AIG's team of cyber risk consultants brings over 50 years combined experience in IT security to help our clients stay ahead of their cyber risk. Our team works directly with insureds to provide detailed, technical expertise and consulting services through:

Cyber Defense Review, designed to take a look at an insured's people, processes, and tools comprising their cybersecurity program and identify strengths and weaknesses.

Internet Facing System Examination, designed to help insureds identify risks and exposures in their public facing infrastructure from an attacker's perspective.

Incident Simulation Workshop, designed to help clients ensure their incident response plan will respond efficiently and help them better maximise their CyberEdge benefits.

Executive Threat Brief, designed to help clients better understand the current security threat landscape specific to their industry and current methods attackers are using.

Cyber Engineering Study, designed to look at an insured's people, processes, and tools that protect critical systems and industrial controls within their environment.

Preferred Vendor Partner Services

We have partnered with experts in cyber risk to bring our clients additional options to add to their line of defense.

Available services include:

Dark Net Intelligence, powered by K2-Intelligence, helps clients stay apprised of what the latest chatter is inside the dark net.

Cybersecurity Maturity Assessment, powered by RSA, helps organisations assess their cybersecurity risk.

BitSight Security Ratings, powered by BitSight Technologies, and Vendor Security Ratings, powered by SecurityScorecard, let companies measure and monitor their own network and those of their third-party vendors.

Security Awareness Training, powered by Wombat Security, provides phishing training and simulations for an insured's employees.

Quantification Workshop and Insurance Portfolio Stress Test, powered by AXIO, helps clients understand their cyber exposure in financial terms and subsequently, how a variety of representative cyber loss scenarios might be treated by the client's entire insurance portfolio.
