In partnership with information assurance experts and law firms, AIG offers a suite of value added services in addition to insurance protection.

KPMG Cyber Response Team

Effective cyber response requires a multi-disciplinary and coordinated approach. KPMG's cyber response team contains technical experts, experienced incident managers, forensic specialists and legal advisors.

- Decisive and measured management of incidents or threats that an organisation may discover, specifically providing practical assistance and advice on containment, mitigation and continuation or resumption of business operations
- An independent view of the risks a business faces in line with their current cyber detection capabilities and procedures
- An international network across 140 countries provides a global cyber response capability

Norton Rose Fulbright

Norton Rose Fulbright will navigate through the full range of privacy and data protection issues worldwide, and provide a global strategy to tackle conflicting and often onerous data protection requirements.

- Audits and general compliance programmes
- Data loss/breaches and regulatory
- Personal data rich products, cloud and e-commerce
- · Monitoring and whistleblowing schemes

CMS Cameron McKenna

The CMS Cameron McKenna international team of lawyers provide expert advice on all data protection and, in the UK, freedom of information matters. With extensive experience across a range of industry sectors, they aim to deliver practical solutions that solve legal challenges without compromising on commercial priorities.

- Data protection registration, required terms and conditions, and policy development
- Responding to freedom of information and subject
 - access requests
- · Resolving data protection issues that arising from corporate and outsourcing projects
