AIG Talbot (TAL) Global Upstream Energy

The AIG TAL Upstream Energy team delivers market-leading solutions with underwriting access points in London and Houston. With two unique operating platforms via one dedicated team we provide clients with a choice of A-rated paper (AIG, Lloyd's or both), world class products and services for all Upstream operations/assets and up to USD $400m capacity.

Who should I access?

AIG

TALBOT
An AIG company

Access AIG and Talbot's Upstream Energy offering for Owners/Operators (including National Oil Companies), Contractors and Offshore Construction for:

- Offshore and Onshore Physical Damage coverage for Upstream property
- Offshore and Onshore Operator's Extra Expense coverage
- Business Interruption, Loss of Production Income and Loss of Hire coverage
- Third Party Liability coverage – when forming part of a package policy
- Offshore Construction coverage – ordinarily for our Operational client relationships only
- Gulf of Mexico Named Windstorm coverage

Benefits of AIG and Talbot partnership

- ✓ One of the largest capacities (USD $400m) in the market, a trusted lead market
- ✓ One of the market's largest Upstream portfolios in terms of premium income
- ✓ Global reach provided by AIG company network or Lloyd's licenses.
- ✓ Worldwide Risk Engineers helping analyse the unique upstream energy exposures
- ✓ Loss control/prevention services for drilling phase, HSE, site inspection, mobile equipment maintenance and operation for operators, non-operators and contractors
