CLAIMS SCENARIOS

AIRCRAFT CRASH: Hull damage and injury to passengers following an aircraft crash resulting in physical damage and injury. Our cover will ensure that the hull damage is paid for and any liabilities to passengers are settled.

SLIPS: A passenger slips at an airport and breaks an arm. The owner / operator of the airport is legally liable to pay damages to the passenger. Our cover responds to bodily injury, and the policy would respond in this instance.

ACCIDENTS: An aircraft operator has an accident resulting in injuries to passengers. Upon further investigation, it is not the fault of the aircraft operator but the original engine manufacturer. The aircraft operator would subrogate against the manufacturer, when their products legal liability would respond.

HEADLINES
