CLAIMS TRIGGERS

LOSS OR DAMAGE: Major claims whilst goods are in transit or in store. Our claims team are experienced in dealing with these situations and will work side by side with our customers to indemnify them.

ACCIDENTS TO THE CARRYING VESSEL: We provide our clients and ship owners with general average guarantees for the banks allowing release of their cargo to continue its journey to final destination. Without this, goods could remain on the vessel, causing potential loss of sales.

QUAY CRANE COLLAPSE: Cover provided for repairs to crane and vessel and can also be provided for ongoing business interruption whilst repairs are made. Any third party bodily injuries also covered.

HEADLINES

EXPERTISE: Combine brokers' expertise with AIG's Marine leading capabilities to better understand our clients' needs providing solutions that they value and which support their goals

EXPERIENCE: We provide Project Cargo solutions for the following types of projects: Power Generation; Refineries; LNG; Bridges and Infrastructure Developments. This includes Delay in Start-Up (DSU) and Advanced Loss of Profit (ALOP).

MULTI-LINE: We offer multi-line capabilities multi-line risks, particularly Construction, Energy, Cyber, Property and Casualty when beneficial to our clients.

SOLUTIONS: Our coverage can be provided on a UK domestic or International, Multinational/Global basis. We can also provide Captive and alternative Risk Finance solutions.

COVER: Logistics/Freight Liability and Supply Chain Solutions, which incorporate Errors & Omissions cover and Consequential Loss cover for Freight Forwarding /Logistics clients. Also Ports & Terminals, Ship Repairers, Charterers, Excess P&I (protection and indemnity) and other miscellaneous marine liability covers.

MULTINATIONAL: The placement of our global programmes along with our Loss Control and Claims teams are all centred in London, ensuring continuity of approach; instant access; quick response times and strong coordination with the underwriting teams. Coverage provided is worldwide (excluding territories sanctioned by OFAC or US/European sanctions).

NO GAPS: Marine Cargo Stock Throughput programmes give cradle to grave solutions for clients' goods from origin to destination throughout the supply chain, ensuring no gaps in cover.

TAILORED: Bespoke solutions for clients to meet their needs, utilising our global network to provide global coverage and global claims support.
