

How can we help?

WINNING WITH AIG

Energy

Underwriting Sweet Spots

In our wide and varied portfolio, some sectors present exceptional growth opportunities

Oil Rig

Upstream, oil and gas, both onshore and offshore including owners, operators and contractors.

Power

Power generation and utility.

Mining

Mines and processing for metals, minerals and ore bodies.

Oil & Petrochemicals

Oil refinery petrochemicals, natural gas, terminals and all downstream hydrocarbon processing, including liquid natural gas.

Chemicals & Pharmaceuticals

Pharmaceuticals & high hazard chemicals.

Preferred Clients

- ✓ Any well managed risk, worldwide.
- ✓ Large multinationals through to single sites.

Clients with:

- A high level of interest in loss prevention through quality management and appropriate protection schemes.
- An appetite to establish long term trading partnerships.

Bespoke solutions

One stop shop for energy industry insurance (upstream, midstream, downstream, power generation including renewables) with market leading capacity such as \$100m for energy casualty, \$400m for upstream and \$500m for downstream, power, mining and chemicals.

Cover for the latest technologies as well as emerging risks such as cyber and decommissioning.

AIG Energy Differentiators

Claims First

- Multi award winning Major Loss claims team.
- In the event of a major claim, AIG will confirm coverage under the policy as quickly as reasonably possible. Once coverage is confirmed, we promise to provide the Policyholder with immediate working funds of up to 50% of our share of the agreed estimate within 7 days for: property damage/repairs, clean-up costs and extra expense/increased cost of working.

Specialist expertise

- Substantial underwriting, claims and engineering expertise in all areas of the energy industry.
- Delivering bespoke solutions for clients' core businesses and fringe exposures.

Multinational

- AIG Global Network of strong local AIG offices and top tier local insurance partners.
- Ability to handle captive fronting and wrap-around captive programmes.

Energy Loss Prevention

- Experienced risk engineers delivering expert risk assessments, benchmarking and loss prevention services on clients' sites.
- Extensive data modelling capabilities.

Cyber Health Check

- Outstanding cyber capabilities (cyber insurance and specialist risk management services)
- Health checks that analyse clients' cyber vulnerabilities (including potential property damage and business interruption).

Loss Workshops

- Analysis of clients' operations and their vulnerability to particular perils, mock loss scenarios and claims response in different parts of the clients' operations.

Energy Networking

- Provide energy clients with valuable industry networking opportunities
- e.g. energy round tables for clients to share key issues and exchange information.
