AIG Environmental Differentiators

Experienced UK team

A specialised, dedicated team based in London with expertise in multinational, construction, real estate, energy and more. The UK team has the added benefit of being able draw upon our international network of over 30 underwriters across more than 20 countries.

Claims First

Our clients and brokers are supported by a dedicated Environmental claims team. Experts in their field, they can handle all types of claims, from the smallest through to the most complex and major risks.

Crisis containment

Professional PR consultancy services are included at no extra cost with all Environmental policies. Vital in helping protect a clients' reputation in the event of a crisis that could have a negative financial impact.

PIER

Pollution Incident Environmental Response (PIER) is included at no extra cost with all Environmental policies, providing insureds with a dedicated 24-hour helpline to use in the event of a claim. It connects them with dedicated, qualified experts to handle their claim.

Multinational capabilities

With tremendous multinational expertise in our UK Environmental team and decades of experience in providing fully compliant global Environmental programmes for clients through our worldwide network, multinational is an exceptional area of growth opportunity.
